Aromatherapy Therapy D 2,950 90mins / D 2,450 60mins

An aromatherapy massage is a relaxing full body treatment that combines gentle to moderate massage techniques (often based on Swedish massage) with the therapeutic effects of 100% pure, fragrant essential plants. The goal is to promote physical and mental well-being by stimulating circulation, nourishing the skin, and reducing stress and muscle tension.

Relaxing Massage D 2,950 90mins / D 2,450 60mins

A relaxation massage is a gentle, soothing treatment designed to reduce stress and promote overall calm in body and mind. Slow, rhythmic strokes and light pressure stimulate blood circulation, relieve muscle tension, and soothe the nervous system. It's a soothing experience, ideal for total relaxation.

Acupressure Massage D 3,250 90 mins / D 2,750 60mins

Acupressure massage (pressure point massage) is a treatment method that applies targeted pressure to specific points (acupoints) along the meridians. The goal is to remove blockages, improve blood circulation, and restore balance to energy flow to reduce pain and stress.

Body Scrub Massage D 3,500 60mins

Over time dead skin cells accumulate on the surface of the skin, giving it a dull appearance or even white flakes. Body scrub gently removes dead skin cells and gives the skin a deep cleanse of all the toxins it releases. It is recommended to have this treatment during the first days of your vacation, as exfoliation helps the tan develop more evenly. After the procedure, active sun exposure is not recommended for at least 12 hours.

Foot Reflexology D 1,650 30mins

Foot reflex massage is a deeply relaxing ritual of an authentic, traditional foot massage. This ancient art of healing applies pressure points on the feet to release tension, reduce fatigue and to improve the physical balance of the entire body.

Hands Reflex Massage D 1,650 30mins

Reflexology is a therapeutic technique that applies pressure to specific reflex zones in the palms and fingers, which are connected to organs, muscles, and systems in the body. By stimulating these points with rhythmic thumb movements, blockages are released, stress is reduced, and self-healing is stimulated. It is an effective method for relaxation and pain relief.

Chair Massage D 1,650 30mins / D 1,050 15mins

Chair massage is a revitalizing treatment lasting 15-30 minutes, focused on key tension areas such as the neck, shoulders, back, and arms. Performed in a specially designed massage chair while you remain fully clothed and without the use of oils, this treatment helps relieve muscle tension, reduce stress, and restore energy — making it perfect for a quick wellness break or workplace relaxation.

Back, Neck & Shoulder Massage D 1,950 30mins

Let your mind unwind with this quick reset & your muscles melt, focusing on those tension areas. Designed for clients needing those problematic areas loosened & some downtime.

Enhancement Collection

Extend your treatment time to enhance its benefits or focus on areas of specific tension. A longer session allows for deeper relaxation & maximizes overall results of the treatment.

Head Massage D 1,250 30mins

Oil Head Massage D 1,250 30mins
